1. Introduction

The purpose of this document is to provide steps for exporting Control-M jobs.

2. Exporting Control-M Jobs

Follow the below given steps to start exporting your Control-M jobs.

1. Load the jobs into a workspace in the Planning domain
2. Click the "Export" icon
3. In the "Save as type" field, select a suitable option

2.1 Exporting Historical Execution Logs

Use the below query to export the historical execution logs of the last three months from your Control-M backend database.

```
SELECT * FROM ${CONTROL_M_DB}.RUNINFO_HISTORY_ARCHIVE WHERE  
START_TIME >=(current timestamp/sysdate)-90
```
